OUR VISION Prime Doc Billing LLC, Is keen to play an important role in the healthcare sector by providing extraordinary services to it's clients and handling the practices like our business. We envisioned to be a reliable company in the IT health care sector with innovative and tech-efficient service delivery and playing its role to uplift the society.

MISSION

To bring innovation in the healthcare sector as the world is now digitalized in every aspect of life due to which we'll be using our digital health approach to help providers & practices to enhance clinical workflows, increase practice revenue, renovate the patient experience, and reduce operational expenses. Ensuring delivery of services that are high quality & cost effective for our clients.

ABOUT US

Prime Doc Billing is providing medical billing services to all physicians, hospitals & practices all over the USA, with a focus on quality services, reduced denials, ensuring timely reimbursements and increased revenues.

OUR SERVICES

Reduce Up To 47%* Operational Costs & Increase Revenue By 40% To 45%

- Using EHRs, physicians can quickly locate information on a given patient's problems, medications and test results.
- We know that not every hospital or health system is the same, so why settle for a generic RCM solution? Let us help you save maximum revenue and get reimbursements for all the rendered services.
- The denial analysis is an extremely important component in a healthcare organization as it helps analyze ambiguous data to minimize denials.

- We provide round-the-clock services throughout the year to solve coding and billing issues and ensure you
- Put your business online and get more sales & leads with quality and professional web development services. We have experience in all facets of web development to help our clients reach their full digital potential.

get your payments on time.

Cloud-based enterprise practice management solution that uniquely empowers and connects care delivery organizations clinically, operationally, and financially.

Credentialing helps in building a good report & dealing with the payers & payment delays in an effective way.
